In response to applicant's amendment dated 01/18/06. the following action is taken:

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 70, and 72-78 are rejected under 35 U.S.C. 102(b) as being anticipated by JP 08-287465.

The reference further comprising timing information to control the raising or falling pit edge page 5 third paragraph. The reference in figs 5 and 7 sets at least one of peak power, bias power and constant data used for recording.
